▶ STERIGUARD EXTREME VIRUCIDAL CLEANER

Think Norovirus is no big deal?

Think again. Norovirus infection is a highly contagious infection, causing gastroenteritis, an inflammation of the stomach and intestines.

Steriguard Extreme is a unique, high level hospital grade, broad spectrum disinfectant cleaner that represents the latest in modern technology and can be used on any surface and is safe for all medical, commercial & household use.

Steriguard Extreme is food safe, non toxic and non corrosive, environmentally friendly Antimicrobial, Antibacterial disinfectant cleaner that delivers peace of mind in the continual fight against Germs, Bacteria, Viruses, Mould and Fungi after a single application. Simply spray onto the surface to be cleaned & wipe over, once it has been applied to a surface, it remains 100% effective, offering continued proven protection against Germs, Bacteria, Viruses, Mould & Fungi. Steriguard Extreme is effective against all

KEEP
NOROVIRUS
UNDER
CONTROL

FROM AS

“ There are 5 fundamentals to safe and efficient laundering In a Health Care Environment ”

1. Equipment (Washers, Dryers, Ironers)
2. Detergents (from basic powders to specialist liquids)
3. Process (select the correct temperature, wash in categories etc)
4. Legislation (HTM 01-04 Directives, WRAS approved equipment etc)
5. Training (How to work safely and efficiently with equipment and chemicals)

▶ INFINITY The Ultimate Fabric Conditioner

DOESN'T LOSE IT'S FRAGRANCE AFTER DRYING

Most fabric conditioners lose their fragrance after drying. Finally after years of extensive development and testing Shorrock Trichem have produced Infinity

▶ FABRIX

WASH RED BAGS AT 30°C

DESTROY MRSA, H1N1 FLU VIRUS, C.DIFFICILE

Laundry is the highest risk area of infection within the healthcare environment. Infection is delivered into the laundry several times a day in red bags. With our Infection Free Laundry Zone, we can ensure that infection does not leave the laundry.

Laboratory Tests

Fabrix Tm meets the requirements of the following test standards:

- EN1276: bactericidal activity Passed for MRSA and C. difficile bacteria
- EN13704: sporicidal activity Passed for C.difficile spores
- EN14476: virucidal activity Passed for the H1N1 human influenza A virus
- EN1275: fungicidal activity Passed for Trichophyton mentagrophytes (Athlete's Foot fungus)
- Destroys the H1N1 flu virus, C. difficile and MRSA bacteria in 5 minutes contact time at only 30°C

▶ DETERGENTS

Concentrated Laundry Detergent

Fully built detergent with a built in de-stainer and OBAs. Gives a fresh, clean smell whilst removing dirt and grime.

Concentrated Fabric Conditioner

Fully built conditioner With anti-static, and "easy iron" Makes the washing softer. Reduces creasing. Cuts down on ironing.

Low Temperature De-stainer

Low temperature de-stainer. Remove stains at 20°C. Can be used to achieve chemical disinfection

Peroxide De-stainer

Remove stains from whites at 60°C plus

“ We stock leading brands ”

▶ POWDERS

Non-Bio

Brilliant results at all temperatures

Super-Bio

Removes dirt and stains

Laundry De-stainer powder

Removes stains and enhances wash result

Laundry Booster

Use as stain remover & de-scaler

HOUSE KEEPING

Xcellent Spray Dispenser

Has a purpose built shelf for holding the bottle in place
 Dispenses the correct measure of product into the water filled trigger

Xcellent Bucket Dispenser

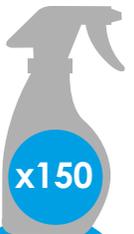

The Xcellent range delivers products easily and economically in a simple, colour-coordinated system that covers all significant sections of the daily cleaning . These super concentrate cleaning products have been formulated by selecting highly effective ingredients and combining them with clean, fresh perfumes to provide exceptional cleaning performance with a refreshing fragrance.

The range also includes two unperfumed products for areas such as catering where fragrance is not appropriate. The Xcellent range is available also in 1 litre dosing system and wall mounted dispensing systems for refilling the dosing bottles.

◀ GENERAL CLEANING

◀ BLU-AWAY

Description

Blu Away is a highly effective biological washroom cleaner that works by degrading organic soiling to completely eradicate stains and odours.

Use Blu Away on porous washroom surfaces such as flooring materials and tile grouting, especially around urinals and toilets where soiling has been absorbed below the surface.

Blu Away will remove calcium deposits on toilet bowls, sinks, showers, taps and fittings. Use to clean all washroom fittings.

Technical Information

Blu Away contains micro-organisms and free-enzymes that produce an enzymatic activity to degrade organic matter and uric salts.

Features

- Blu Away has a pH value of approx 4.5
- Highly effective against odour
- Has a pleasant mint fragrance
- Has no harmful properties Is formulated to spray
- Blu Away is recommended to use with Biological Urinal Toss Blocks

◀ AIROMA

Construction: Anodised Aluminium Solid Extrusion

Power Supply: 100 - 240v 13-17 watts

Weight: 1.5kg

Operation: Continuous indicated by blue lamp.

Requires annual lamp change.

▶ INNERCLEAN

Cooking on the hob creates grease which rises and is absorbed into the canopy and kitchen duct. This is a fire hazard. Shorrock Trichem Innerclean team will take internal photos of the duct and prepare a quotation. We will clean the whole length of the duct and provide you with before and after photos.

**WE TAKE
BEFORE &
AFTER
PHOTOS**

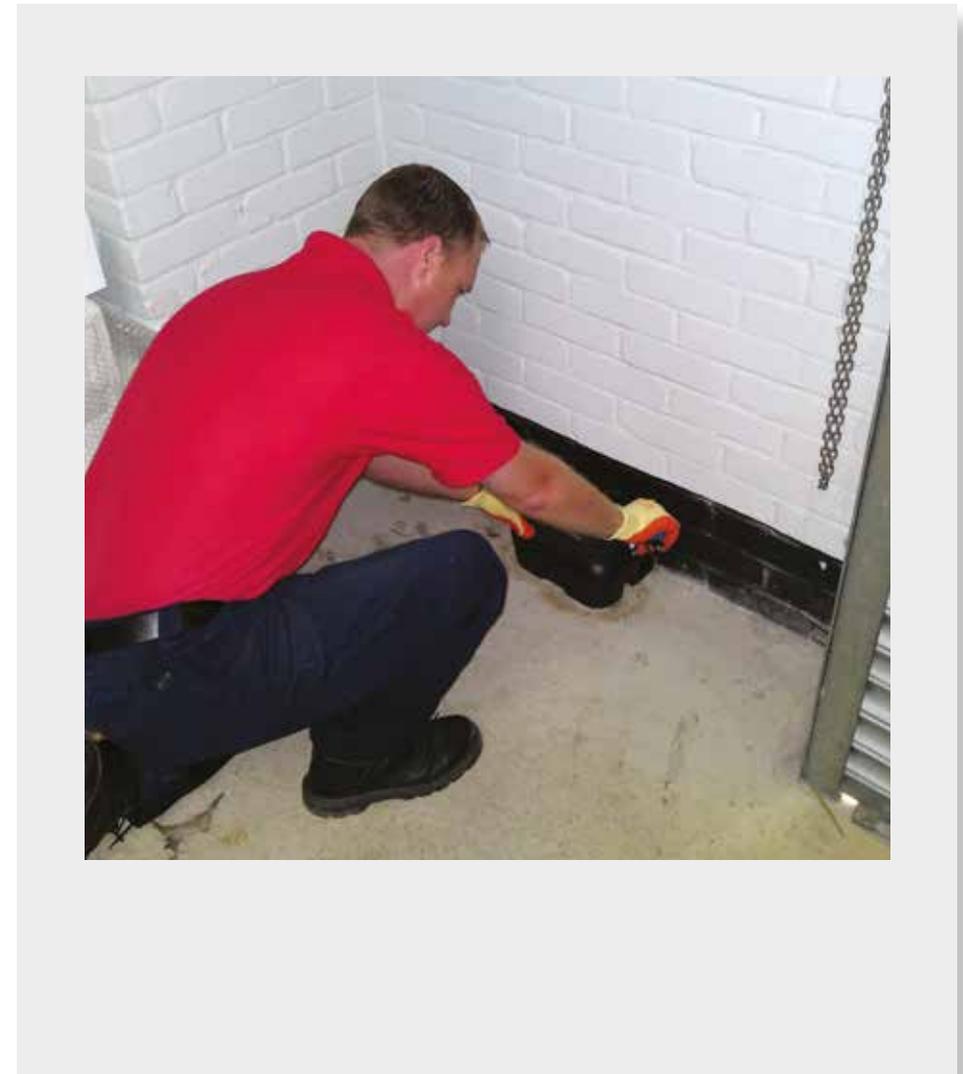

▶ PEST SOLUTIONS DIVISION

Many businesses employ pest control companies to carry out preventative pest control services. These services can be left to run for many years without any policing or being audited. This could potentially lead to a number of problems:

- ▶ Missed site visits
- ▶ Old outdated techniques or materials
- ▶ Missed pest infestation
- ▶ Poor reporting of housekeeping, proofing or stacking problems

This can not only lead to potential infestation; but could also end up costing your business money.

Pest Solutions UK offer a free independent site survey. This will audit your current supplier's service and reporting, whilst also providing an up to date assessment of the quality. This will be followed up by a written report and corrective actions/ recommendations where required.

▶ COFFEE LOGISTICS

Bringing together a wealth of blending and retail experience both the brand and the blends have been lovingly created to give an exceptional quality product for every application. Whether it's beans, filter, bulk brew or Cafetiere, the Caffè Dolce product range delivers every time.

Premium Decaffeinated Freeze Dried Coffee Tin

▶ C.O.S.H.H

Welcome to our COSHH AWARENESS Training DVD. The aim of this DVD is to allow you to train your team at a time that is convenient to you and them. The DVD will give the staff a general understanding of their legal responsibilities, Hazard Symbols & Labelling, COSHH Assessments & Safety Data Sheets, Routes of Entry, Personal Protective Equipment and Emergency Procedures. Please complete these 5 easy steps to get your team trained.

1. Arrange for your team to attend the training session.
2. Complete the "Training Attendance Register", ensuring that the team print their name clearly.
3. Play the DVD.
4. Having watched the DVD, ask the delegates to complete a COSHH Questionnaire each, ensuring that they clearly print their details in the "Delegate Details" section.
5. Collect in the questionnaires and post them to us in the pre-paid envelope provided.
